Guided tour : Half a day at the Abbey of Royaumont and its gardens : A huge park surrounds the gothic buildings of the abbey. Recently, it has been complemented by 3 new gardens. A squared planted space, with medieval inspiration, was restored. Likewise, the cloister lawn, of French style, was redesigned in its original shape from 1912. Lately, a large vegetable garden was arranged in order to experience techniques of organic growing.

The guided tour allows to tackle gardens history, their styles, their purposes and uses but also principles of environmentally-responsible approaches.

Guided tour : Half a day in the gardens of the Castle of Auvers

The village is famous to have accommodated great painters such as Vincent Van Gogh who is buried there. The Castle which overlooks the Oise Valley, is also an heritage masterpiece.

The walk around the Castle allows us to wander in the 9 hectares of the park, across different atmospheres inspired by various styles. In that sense, we can find Italian Renaissance influence with subsequent terraces overlooking the village until the Oise river. We also can find French formal terraced gardens influence with lawns, paths, fountains and plants, organized symetrically. Then, we have an English style park which disposition is a bit more natural. ## Citroën DS Conservatoire Car Museum Tour

### Much more than an automobile adventure!

More than 300 vehicles are displayed, representing a century of a passionate human, industrial and commercial adventure, heritage waiting for amateurs and those who are curious to discover!

Marvel at an exceptional collection! The Citroën Héritage and DS Héritage collections will enthral you during a visit lasting about 1 and a half hours, from the DS of Presidents de Gaulle and Pompidou via Sacha Guitry's C6, without forgetting Sébastien Loeb's C4 WRC.

Visiting the Conservatoire Citroën car museum means going back through the history of the double-chevron car maker, from the first "Type A" made after the First World War, to vehicles designed in the past few years to satisfy Chinese clientele, via the 2CV and DS which truly created a revolution in the car industry.

The choice was made to have a living heritage rather than a museum-style setting, with most of the 300 vehicles in working order exhibited over 6500 m².

All the sectors that have made Citroën's history are present at the Conservatoire: the adventure with the caterpillar cars in the Yellow Expedition, sport with the DS, ZX and C4 which dazzled on podiums, technological innovation and style of course, the car maker's DNA.

The tour can start with a breakfast or continue with a buffet lunch in the Conservatoire.
